

# Team Meeting

---

## Agenda Items

---

- Go over brainstorming ideas
- Go over references we will use
- Go over and make sure everyone understands the final term assignment in the last module
- Go over a thesis to kick it off
- Possibly set up meeting next week and until then everyone gathers more info and try to come up with some resolutions to those lists of questions in module 7 final term paper
- Discuss plan to write the paper
- I know we have assigned roles but, those writing the paper please let me know when you would be doing this, I would like to be on a call to help with any information and help make this essay easier since she wants it to be 4- 6 pages
- Maybe we can consider splitting it up and each person do a paragraph, open to interpretation
- Come up with 3-5 good points to center our paper around: resolution, financial advantages, workers morale, ect.
- Try to make a quick outline maybe
- Review the final term paper I have shared with everyone already. Cover page is done, second page has the info for the assignment, when we are ready delete that part.
